BRYCE CANYON AREA TRAIL ETIQUETTE

Is the trail too soft?

Do not use the groomed trail if you leave tracks deeper than 1 inch.

Tire Pressure: Recommended tire pressure is 1-8 psi. If you are leaving a rut, lower your tire pressure. Do not ride the trail if you are leaving a rut deeper than 1" or having a hard time staying on the trail.

Please STAY OFF THE GROOMED SKI TRAILS. You are welcome to go just off to the side of the groomed trails. This helps us preserve our trails for skiers when we do not get frequent snow storms.

- » Downhill skiers have the right-of-way
- » Stay in control and always yield to slower-moving recreationists.
- » When passing, slow your speed and politely call out, "On your left".
- » Be respectful of wildlife and private property.

- » Leashed dogs are allowed. Please clean up after them.
- » Keep the trails litter free.
- » Be courteous to other trail users and always have fun!
